

Senior Front-End Engineer (80%-100%)

Who we are

NOUMENA Digital AG is a rapidly growing innovative Swiss-based Technology Company.

We build enterprise products and solutions across a variety of industries with our own smart contract language on our cutting-edge technology. Our success is built on process-oriented distributed technology, a focused vision and strategy, an international team of business and technology experts, a cross-industry customer base and a strong external partner network.

Culture

We value engineers that are excited about developing innovative software. Our engineers are comfortable in the fast-changing world of start-ups. They are creative, like to figure things out together and are eager to move things forward.

Role

Our client projects and products are delivered full stack – we are searching for Frontend Engineers to:

- Help projects hands-on in the development of responsive web frontends
- Contribute thoughtfully to our frontend strategy in order to increase our delivery speed
- Help to build up an end-to-end stack supporting our proprietary business protocol modelling engine
- Proactively take ownership of decisions to deliver business value in a high-skilled, flat-structured work environment

Qualifications

- Experience and motivation working with vanilla JS, web APIs, and web standards
- Multi-year hands-on experience with one or more web technologies like Angular, React, Vue
- A track-record in delivering frontends for enterprise clients
- A keen eye for user interface design and usability
- Experience integrating with ReST APIs
- Experience and passion for building libraries and solid APIs
- Dedication to creating robust and testable code
- Excellent communication- and cooperation skills
- Team-player, flexible, proactive and able to work under pressure

We Offer

- A competitive compensation package
- Work in an agile team with highly experienced Software Engineers, DevOps, Business Analysts and Product Managers
- Exposure to multiple industries (finance, energy, automotive industry, ...)

Other Requirements

A Swiss or EU/EFTA passport or a valid Swiss work permit type B or C
